**CHIEF LIBRARIAN
UTM LIBRARY
NORAZIAH SHARUDDIN**

Assalamu'alaikum w.b.t. and Good day,

UTM Library strives in supporting the tradition of knowledge by preserving and enriching the various collections that can be accessed from anywhere and at any time. This effort is to support the University's goal of becoming a world-class academic and technological centre by producing outstanding and distinguished graduates. Users' needs are the priority of UTM Library through excellent service delivery. Through the expertise of professional librarians, improvements in the work processes are carried out continuously by taking into account of users' feedback in order to support the teaching and learning activities. The development of sustainable collection is strongly emphasized as well as providing convenient and practical facilities to users. Libraries are the cornerstone of knowledge enrichment activities through the organisation of strategic partnership programs with government bodies, NGOs, faculties and publishers. Among the programs held are K-Sharing, Book Reviews, Information & Research Skills Workshops, Information Literacy Classes, exhibitions and carnivals. UTM Library is committed to the community by implementing its corporate social responsibility (CSR) program which indirectly favours the culture of knowledge to the community and the environment in value. Thus, UTM Library is ready to mobilise and take responsibility for the continuity of the University in the name of UTM to the world.

~ At a Glance ~

UTM Library is located at the heart of Universiti Teknologi Malaysia (UTM) Johor Bahru campus and has several branches including the Perpustakaan Sultanah Zanariah Kuala Lumpur, Perpustakaan Raja Zarith Sofiah, Perpustakaan Menara Razak Kuala Lumpur, Malaysia-Japan International Institute of Technology Library Kuala Lumpur, Institute of Bio product Development (IBD Johor Bahru), UTM Pagoh Higher Education Hub Library and 11 faculty libraries.

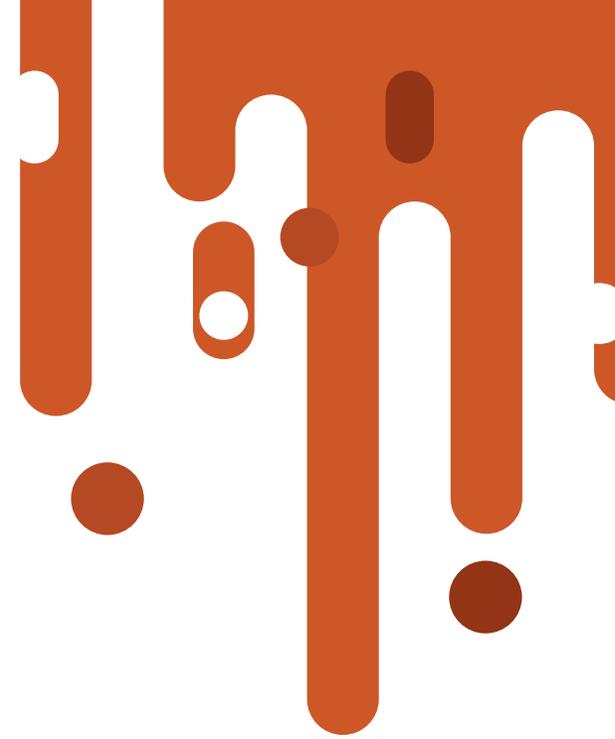

The library is one of the major components in supporting teaching, learning and research activities in UTM. The development of the library collection and its services is to meet the needs of science, technology and engineering fields that are the core of UTM as well as social and human sciences fields. In addition, the Library is effectively managing the various electronic information resources such as databases and e-books that can be accessed 24/7 at your fingertips.

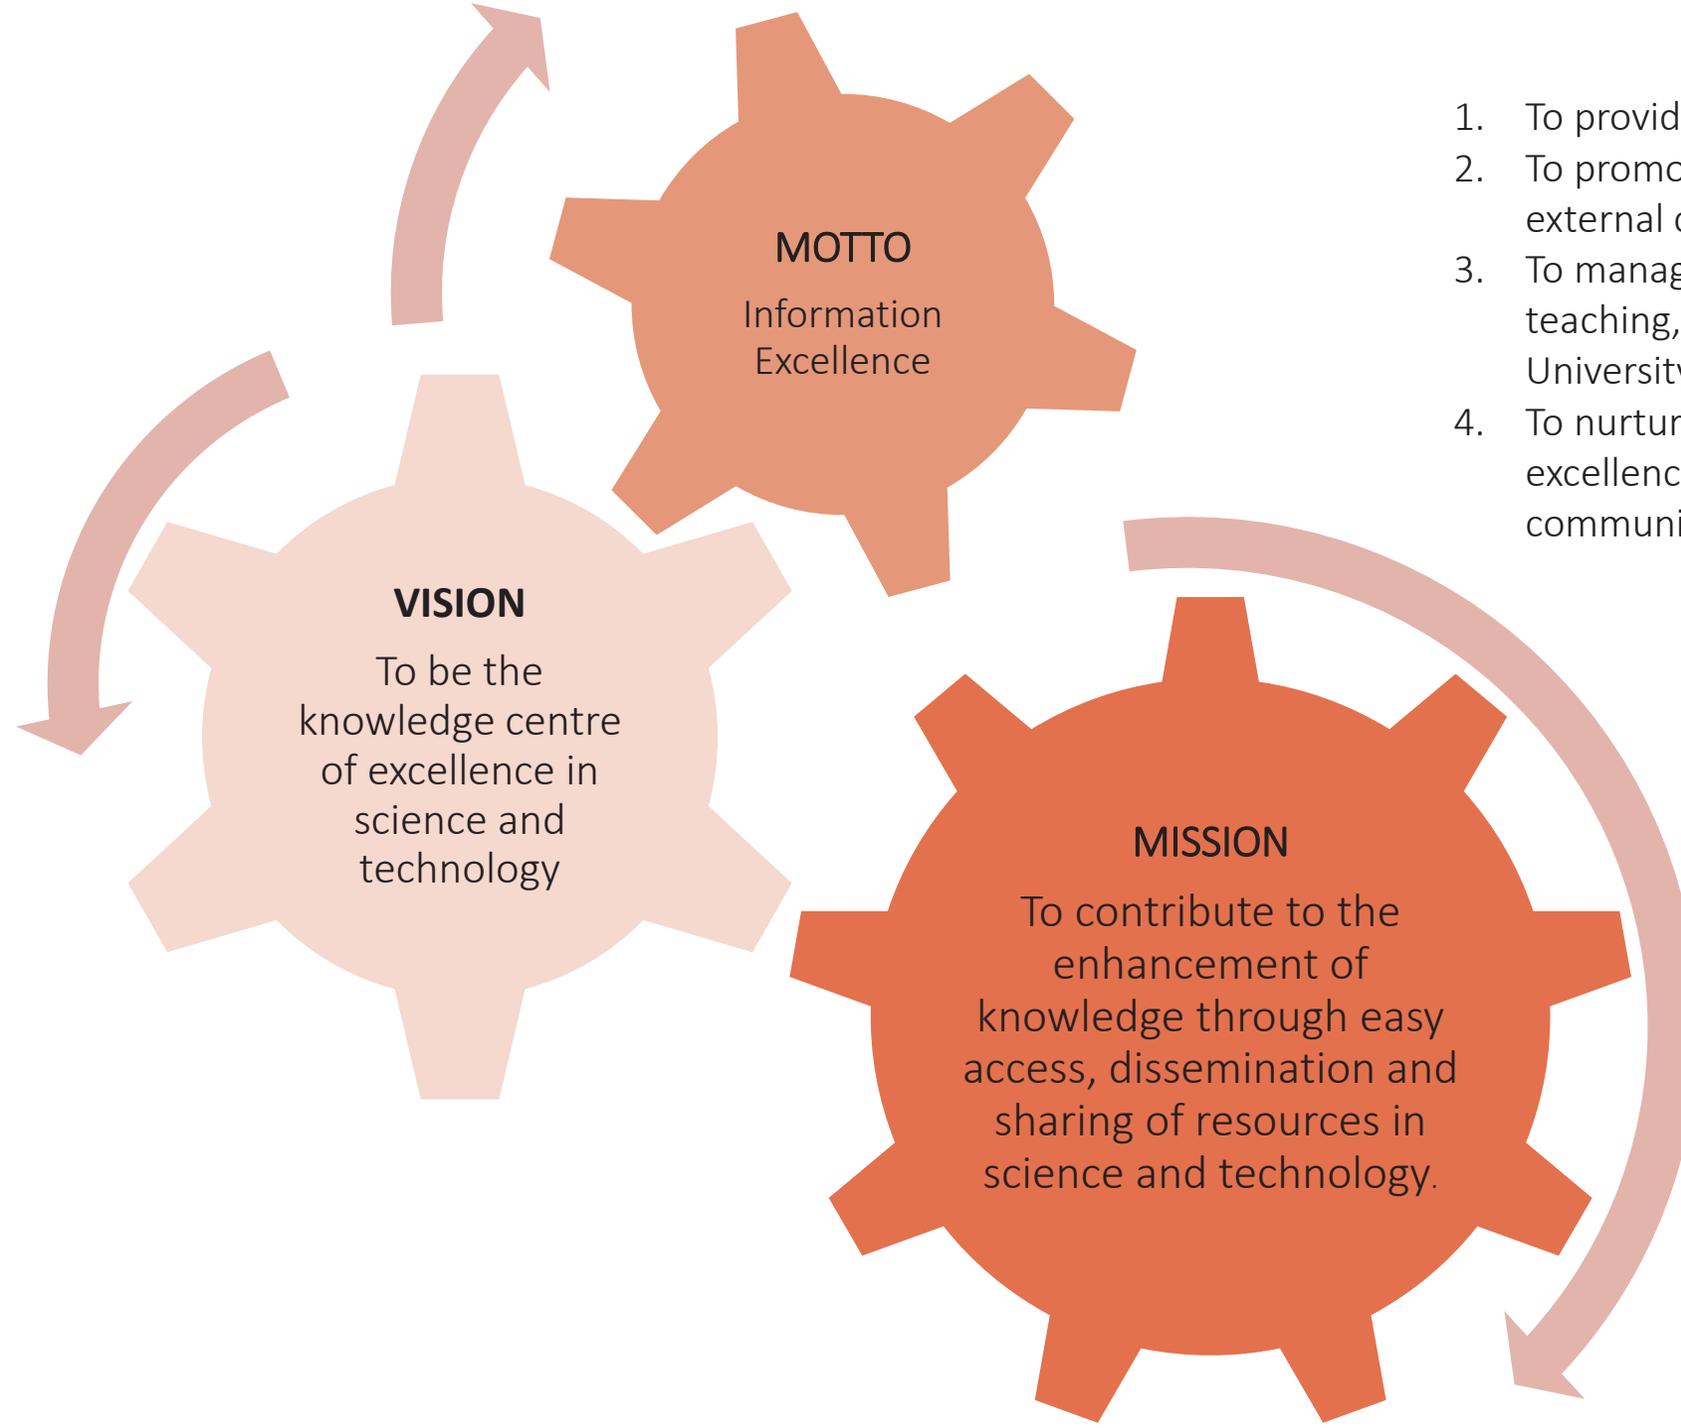

The Computerized Library System was first developed in 1986, until Digital Library was successfully developed from 2001 to present. All library processes such as material procurement, indexing, circulation and information retrieval are supported by the Library Management System (Sirsidynix Symphony). The library collection information can be accessed online through the Library Electronic System & Research Information (LESTARI) either from within or outside the campus. The Library also offers corporate membership to the industrial or private sector by providing information, facilities and services that can support research and development (R & D) needs by the sector.

Apart from searching for printed material information, electronic information searching facilities through online databases are also among the services provided to users. Now with the development of Internet technology, the Library also provides the facilities through a number of personal computers placed in the library's reference room. The library also provides multimedia facilities to all users in the teaching and learning processes in UTM.

With the help of professional Librarian's, users are given the guidance to pursue information searching through LESTARI as well as other electronic resources, collections and services which are provided specifically for users.

Library services efficiency and quality are recognized when the Library was awarded the MS ISO 9002 Quality Award by SIRIM in May 1998 confirming that the Library complied with the systems and processes towards quality service. In 2010, the Library has been certified with MS ISO 9001: 2000 and followed by MS ISO 9001: 2008. Subsequently, in 2016, the Library received the MS ISO 9001: 2015 certification rating.

OBJECTIVES

1. To provide information based services for its users.
2. To promote information services to UTM's internal, and external community.
3. To manage information in-line with the learning, teaching, research, consultancy, and publication of the University.
4. To nurture a knowledge-based culture and towards excellence mindset amongst UTM's internal, and external community.

EMERGENCY PROCEDURES

EMERGENCY PROCEDURES

Please note the location of emergency doors at the main and branch libraries.

In case of fire:

1. The emergency alarm will be ringing.
2. The library staff with speakerphone will be available to assist users.
3. Remain calm.
4. Leave the library books on the table.
5. Take your documents, wallets and personal items.
6. Follow the library staff instruction to exit through emergency doors.
7. Go downstairs in order. Do not push others.
8. When outdoors, stay away from the library building.

Note:

All information in this book is true at the time it is printed and the Library reserves the right to make any changes as it deems necessary without making prior announcement. Please refer to the Library's website for updates.
