This requires the ability to flexibly and efficiently navigate a library through customer requirements and institutional competition, as well as the challenge of keeping up with rankings and satisfying the needs of employees with whatever limited resource available.

Librarians have always been acknowledged as the authority on information management, playing a role in the way information is disseminated in this world of ever changing and fast development communication, expanding technological transformations, borderless networking and global interdependencies. As such librarians can play key roles in the maintenance of the standard of living and further development of world heritage.

## *From the Editor's Desk*

Assalamualaikum Warahmatullahi Wabarakatuh and Greetings

In order to successfully achieve its main aim, UTM Library requires the cooperation of members of the campus community, in particular the students and researchers, the staff of the university, as well as people in the surrounding community. Hence, the Library bears the responsibility of helping to fulfill the aspiration of the University's leadership towards providing the best facilities and services to meet the demands of UTM's stakeholders and customers.

Realizing a conducive library environment is crucial in helping students cope with the learning process while in UTM. The Library focuses on several improvements in facilities, services and management. One obvious improvement is the newly carpeted floor of level 3. Other plans for improvements will be implemented soon to ensure the convenience for all.

We are very confident and optimistic that the Library will be able to provide you desirable and high quality service. Please do not hesitate to make full use of all the facilities and services available. We also welcome any suggestions for improvement.

## Kerjasama Komuniti Perpustakaan UTM Dengan Sek. Keb. Ayer Manis Kulaijaya

Hubungan dengan masyarakat setempat dan komuniti luar yang akrab akan membina jaringan dan jalinan yang memberi kebaikan kepada kedua-dua pihak. Sejak itu, Perpustakaan UTM dengan kerjasama Persatuan Pustakawan Ma-laysia (PPMKS) Kumpulan Selatan telah menyumbangkan sejumlah 662 buku serta empat buah komputer terpakai kepada Sekolah Kebangsaan Ayer Manis Kulaijaya pada 30 Oktober 2013. Buku ini dikumpul oleh PPMKS dan Perpustakaan UTM sejak bulan Julai lagi.

Kerjasama komuniti ini adalah sebahagian dari usaha membantu pihak sekolah dalam menambah bilangan buku, bahan bacaan dan komputer agar budaya membaca dan minat kepada bahan bacaan dalam kalangan masyarakat pelajar sekolah dapat ditanam seawal mungkin.

Majlis penyerahan komputer dan buku ini telah disempurnakan oleh Ketua Pustakawan UTM, Puan Kamariah Nor Mohd Desa. Turut hadir adalah Encik Seroun Samsuddin, Guru Besar SK Ayer Manis dan Yang Dipertua Persatuan Ibu Bapa dan Guru (PIBG) SK Ayer Manis, Encik Iskandar Miza Ahmad.

Selain itu, UTM Reading Station (UTMRS) yang menjadi tanggungjawab sosial Perpustakaan UTM juga telah dibangunkan di sekolah ini untuk menjadikan budaya membaca sebagai aktiviti berfaedah bagi mengisi masa lapang warga sekolah.

Program ini secara tidak langsung telah meningkatkan nisbah 14 buku bagi setiap murid di sekolah ini yang mempunyai seramai 320 orang murid.

Ini kerana pada masa yang sama sekolah ini menyasarkan nisbah ini bertambah kepada 15 buku hasil dari sumbangan bahan bacaan ini.

Sesungguhnya tanggungjawab sosial ini bukanlah perkara baru kerana sebelum ini Perpustakaan UTM pernah menjayakan program yang sama di Kampung Belukar Durian, Kota Tinggi Johor, projek Braille bersama pelajar Sekolah Pendidikan Khas, Sekolah Princess Elizabeth, Johor Bahru dan Projek Bersama Rumah Anak-anak Yatim, Pontian Johor.

# What Do You Need To Know?

Researcher Guide@UTM

## What is Impact Factor?

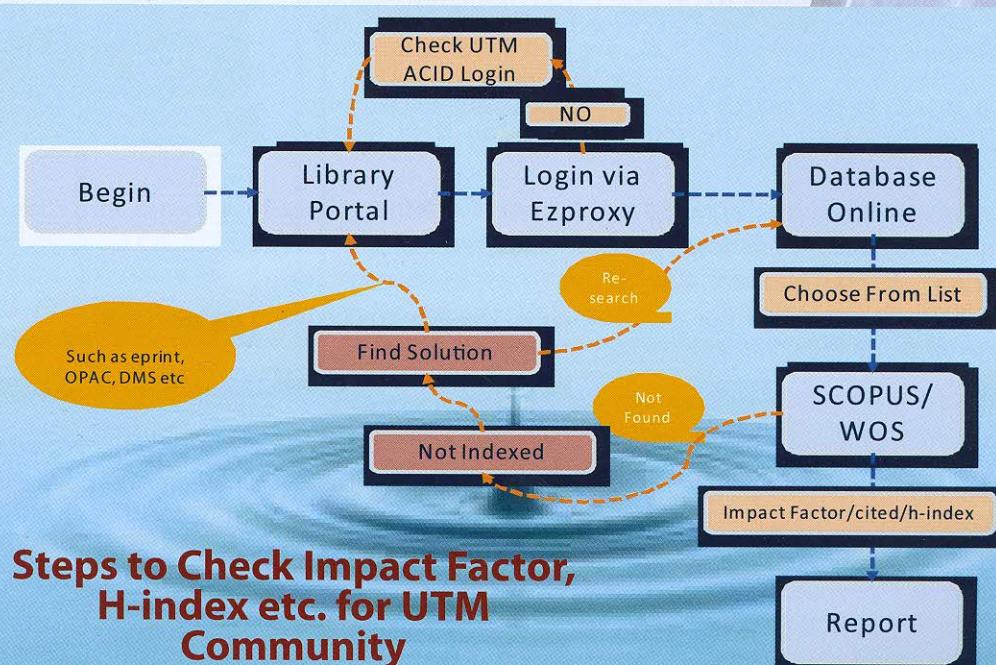

- ☒ A citation metric
- ☒ The impact factor of a journal is the average number of citations received per paper published in that journal
- ☒ The journal must be published in 2 consecutive years, so the IF can be calculated in the 3rd year

### Example of IF calculation:

- A journal published in 2008 has an impact factor of 3.0. This means that papers published in 2006 and 2007 received 3 citations each on average.
- Sample calculation: For 2008  
impact factor = A/B

A = the number of times articles published in 2006 and 2007 were cited by indexed journals during 2008

B = the total number of "citable items" published by that journal in 2006 and 2007. ("Citable items" are usually articles, reviews, proceedings, or notes; not editorials or Letters to the Editor).

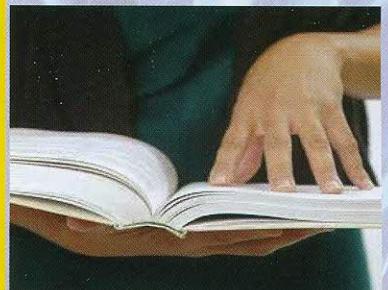

## What is H-index?

- ☒ The h-index is an index that attempts to measure both the productivity and impact of the published work of a scientist or scholar.
- ☒ The index is based on the set of the scientist's most cited papers and the number of citations that they have received in other publications.
- ☒ The index can also be applied to the productivity and impact of a group of scientists, such as a department or university or country.
- ☒ The index was suggested by Jorge E. Hirsch, a physicist at UCSD, as a tool for determining theoretical physicists' relative quality and is sometimes called the Hirsch index or Hirsch number

## Books... Handle with care

## User Convenience is Our Priority : Enhanced Facilities

User convenience is taken seriously by the UTM Library and it has been our priority to ensure that each user receives the best facility. Not only have the existing library facilities improved in terms of smoothness of the system but improvements on the environmental atmosphere had impact on the image of the library as well. Elements such as lighting, scent, sound and temperature greatly affect user comfort and consequently affect their concentration on activities.

The Library management's efforts to replace the carpeting of the Interactive Area, Level 3, which accommodates the Internet facilities, OPAC, laptop zone, etc, is appropriate and timely. This is done out of concern over the bad odor from the old carpeting, and is seen as one of the library's efforts to improve learning environment. Now, the area looks new, more comfortable and more vibrant with colors. The area was previously closed from 19 November to 8 December 2013 to make way for the necessary renovations and carpeting, as well as for health reasons such as to protect users from noxious odor of chemicals and dust.

Library users seemed thrilled with the new look. The Library would like to thank everyone for being patient and complying with the ban from using the area. The wait is really worth the while as the place is really pleasing to the eye and of course ...no more bad odor.

## Facility Enhancement for Carrel & Discussion Rooms: Internet Access

The demand for Carrel and Discussion Rooms in the UTM Library have increased each year. In 2012 alone the total number of users was 28,155. Undergraduate students make up the highest number of carrel and discussion rooms users, amounting to almost 50% of the total number. The number of users is expected to rise even higher in December 2013 due to the installation of the UTP cable in every room, which allows for internet access. The facility has been provided in stages beginning the year 2012. The latest addition of 1 unit UTP cable in each Discussion Room, in addition to one previously installed, brings the number to 2 access points to a room.

The status of network activity for all access points are still in the early stage that requires monitoring from time to time. Consumer complaints are good indications of their concern for the quality of library services. The Library will seek and pursue a variety of initiatives that can enhance user experience, especially facilities involving information technology. Of course, the responsibility of each user is very important to ensure that the facilities provided are used responsibly so that they can be enjoyed by everyone in the long run.
